

## ***School Governors & Clerks Courses***

School governors help to provide strategic leadership and accountability in schools, playing an important part in raising school standards.

Clerks to governing bodies fulfil a key function as they provide advice to the governing body on governance, constitutional and procedural matters and effective administrative support. Clerks ensure the governing body is properly constituted and manage information in accordance with legal requirements.

Whether you are a school governor or a clerk, our courses aim to develop your understanding of key school governance processes and enhance your leadership skills.

For further information on School Governor and Clerk courses please contact our partners at Carnegie Teaching Schools' Alliance [here](#). Alternatively please call: +44(0)113 812 7540.
